

CALLING ALL CLIMATE ADVOCATES!

CITIZENS' CLIMATE LOBBY GUNNISON VALLEY CHAPTER

What is the Citizens Climate Lobby?

Citizens' Climate Lobby is a non-profit, nonpartisan, grassroots organization that is focused on passing national policies to combat climate change. In Citizens' Climate Lobby, we are committed to building the political will for bipartisan, market-based, and fiscally-responsible climate solutions. We do this by educating, engaging with, and earning the support of members from our community: friends, neighbors, businesses, faith communities, and local leaders. We hope to secure a healthy, bright, and livable world by promoting solutions that effectively reduce carbon emissions, while strengthening the American economy at the same time.

What is the Carbon Dividend Act?

The Energy Innovation and Carbon Dividend Act (H.R. 763) is the main policy that CCL is working to get passed. It will drive down America's carbon pollution and bring climate change under control, while unleashing American technology innovation and ingenuity. Through taxing carbon outputs of major global emitters this act will be incredibly effective in improving both the climate and health of the United States. The tax on carbon will be turned over as a payable dividend for all households in the US, which makes this act a win for both the people and environment.

OUR GOAL

Our goal is to establish an effective and lasting CCL Chapter in Gunnison with support from both Western students and local community activists. Through activism and education, we want students and community members to unify as a powerful voice in the realm of climate change. Our chapter can provide several different climate advocacy trainings and workshops to provide the skills necessary to successfully lobby for the environment. From grassroots outreach to writing letters to congress, our CCL chapter can help you become a lever of political will!
